

ATTENTION:

Parents of 6th Grade Students

This flyer contains vital immunization information that will affect your child when he/she enters 7th grade. There is a new Texas immunization law which states that all students entering 7th grade must show proof of the following immunizations:

Meningococcal Vaccine
2nd Varicella Vaccine (Chickenpox)
Tdap Booster

If your child receives these vaccines prior to June 2010, please submit the immunization record to the Bales School Nurse, Mrs. Steinhauer, so she can update your child's immunization record in the FISD health records system.

You are encouraged to use this school year to get the appropriate shots completed prior to August 2010, when your child enters 7th grade.

Thank you for your attention to this new immunization law.
